

60 – Health Care Business Continuity

Action Item Template Response

General Action Item Information

Lead Division/Office: Information Services and Technology Management

Action Item Number: 60

Action Item Short Name: Health Care Business Continuity

Dependencies with other EP Action Items: 20

Implementation leader (name & email): Vince Sheehan (vsheehan@iupui.edu)

I. DESCRIBE YOUR PLANS FOR IMPLEMENTING THIS ACTION.

IUSM is actively developing business continuity plans for all departments within the school as part of the IUPUI campus business continuity initiative. IUSM will work with its healthcare partners to develop appropriate links to their business continuity plans as well.

II. WHAT ARE THE POLICY AND PRACTICE IMPLICATIONS OF YOUR PLANS?

All business units in the school are in the process of developing plans. School policies and plans will be revised to reflect new requirements from both the university and government agencies related to business continuity. School policy will require that all units develop, test, and maintain their plans to cover emergency contact information, information technology requirements, and operational procedures to conduct critical services.

III. IDENTIFY STAKEHOLDERS.

- IIA
- IUSM departments, centers, and business units
- Clarian
- Wishard
